to have a careful record made of the hearings, for future use, if necessary. Will Appeal to Taft.  
It is the firm purpose of the Delegate to take an "appeal to Caesars" if Secretary Fisher persists in recommending the re-appointment of Governor Frear. The matter will be taken to the White House and laid before President Taft. The Delegate will make a personal appeal to the Chief Executive and urge him to retire the present official and give the position to some other good candidate on whom an agreement can be reached.  
Curiously enough, there is not the

## WHISTLE WILL BE SIGNAL

(Continued from Page 1)  
of Pearl Harbor the greatly increased importance of the Hawaiian Islands, both commercially and from a government standpoint.

Everything is in readiness for the initial trip of the cruiser through the channel. This morning Lieutenant Gayler, who is in charge of all the Pearl Harbor work both ashore and under water, for the government, submitted to Lieut. Comdr. McDowell, navigator of the California, an up-to-the-minute chart of the harbor, indicating the exact position of every dredge, scow and buoy, and the soundings. Several new flag buoys have been planted within the last two days, and these, with the contractors' range marks, make the entrance perfectly clear. Captain Harlow and Lieut. Comdr. McDowell went over the chart together, and after studying the blue

print with great care Captain Harlow gave it as his opinion that it would be a simple matter to take the California in. The ship will anchor off the drydock, where there is good holding ground and plenty of room for the vessel to swing round for her homeward journey.  
The California will not anchor overnight in Pearl Harbor. A rumor to this effect was spread round, but is denied by the chief of staff. She will return to Honolulu, but will not tie up to the dock, anchoring in the harbor and getting under way Friday morning for Hilo.

## THOUSANDS WILL SEE CELEBRATION TOMORROW

Thousands of people will visit Pearl Harbor tomorrow morning to watch the flagship California enter the long channel and to see the stately naval pageant that will be presented.  
They will go by sea and land. The Chamber of Commerce has chartered the Inter-Island steamer Claudine, carrying about 250, while the O. R. & L. company will run a special train from the harbor right to the drydock, where there will be a little ceremony of in-

spection. The special train leaves the station on King street at 9:45 o'clock, with accommodations for 500 people, and will return, it is announced, when the crowd is ready.  
Besides these more or less public excursions, the California will carry a distinguished military and civilian party, which will attend the elaborate luncheon to be given by John F. Colburn on the peninsula and will be brought back to the city in the afternoon by a special train. Hundreds will go by auto, carriage, on horseback or on foot.  
The Merchants' Association directors decided not to charter the Helene, in view of the fact that many of the members of the association are also members of the Chamber of Commerce, but a majority of them will attend the celebration.  
President E. O. White said today that the merchants will let as many of their employes go as possible, but that on account of the busy holiday season all the stores will be open as usual.  
Walter F. Dillingham of the Hawaiian Dredging Company today said that the channel will be entirely completed, so far as allowing the flagship to enter, by tomorrow, dredgers now being at work on the few spots where there

is still some cutting to be done. The channel and big harbor give ample room for the flotilla of accompanying craft to enter.  
At only one spot, and that near the old "Sharp Pen" point, will there be a sharp turn. Here the California will distinguish military and civilian party, which will attend the elaborate luncheon to be given by John F. Colburn on the peninsula and will be brought back to the consulate staff, will accompany the invited guests of Admiral Thomas on board the flagship California. The Chinese consul and almost all the members of the diplomatic corps will go down to Pearl Harbor also.  
Former Queen Liliuokalani, who also received an invitation from the commander-in-chief of the Pacific fleet, will be among the guests to go down tomorrow morning in the flagship California. She will be attended by Col. C. P. Lauka and Mrs. Lauka.  
Large collars in round, pointed or hood effects are much in evidence on new coats. They are usually finished off with long, narrow revers, ending below the waist line.

usual scramble for this good position that pays \$7,000 a year and carries much of honor. As an ordinary matter there would be any number of candidates, each working over time to bring in influence and secure the plum.  
To Hurry Federal Building.  
The Delegate will next turn his attention to the pending erection of a new public building in Honolulu. He will visit the Treasury Department at the first opportunity and stir up all the officials there, insisting there should be no further delay. He will declare the new building is badly needed and a selection of the required site should be made without additional waste of time.  
A bill will also be prepared for early introduction referring to the Court of Claims the demand for damages made by the captain of the schooner Mol Wahine, which was wrecked in a mysterious manner by the lighthouse tender Kukui. A board of inquiry found in effect that the lighthouse tender was responsible for the collision which destroyed the schooner and caused death of all on board except the Captain, who escaped by a phenomenal swimming feat and demonstration of endurance.  
It is impossible for the Department of Commerce and Labor to make any settlement for the lost vessel, without formal court proceedings. No defense will be made, but the Court of Claims will be left to pass upon the facts, as developed by the inquiry.  
The Floral Parade helps Honolulu's business. Do you want to help?
